

**HYTHE CIVIC SOCIETY**  
**ANNUAL GENERAL MEETING**

**Item 4. AWARDS**

**Outstanding Service Award**

The Executive Committee wishes to acknowledge the longstanding and dedicated voluntary commitment of community members who help maintain the town and its surrounding areas through regular litter clearing efforts. These activities complement the regular clearing work carried out by our local councils and contribute to maintaining the attractiveness of our town and its surrounding areas.

*i. The Hythe Environmental Community Group (HECG)*

HECG is a well-established community organisation involved in various voluntary environmental initiatives. One of its key ongoing activities is the coordination of monthly community litter picks, each focusing on a different area of the town. These events, held throughout much of the year, are well attended by group volunteers and reflect the group's strong commitment to environmental care.

In recognition of such dedicated service and benefit to the town, the Society expresses its gratitude and is proud to present this award to the Hythe Environmental Community Group as a token of appreciation for its outstanding community service.

**Honorary Life Memberships**

The Executive Committee wishes to acknowledge and convey the Society's appreciation to the following members for their longstanding and dedicated commitment as volunteers by granting honorary life membership:

- i. Tony and Daria Keeler*
- ii. David Paton*

A big thank you!
